Our Mission

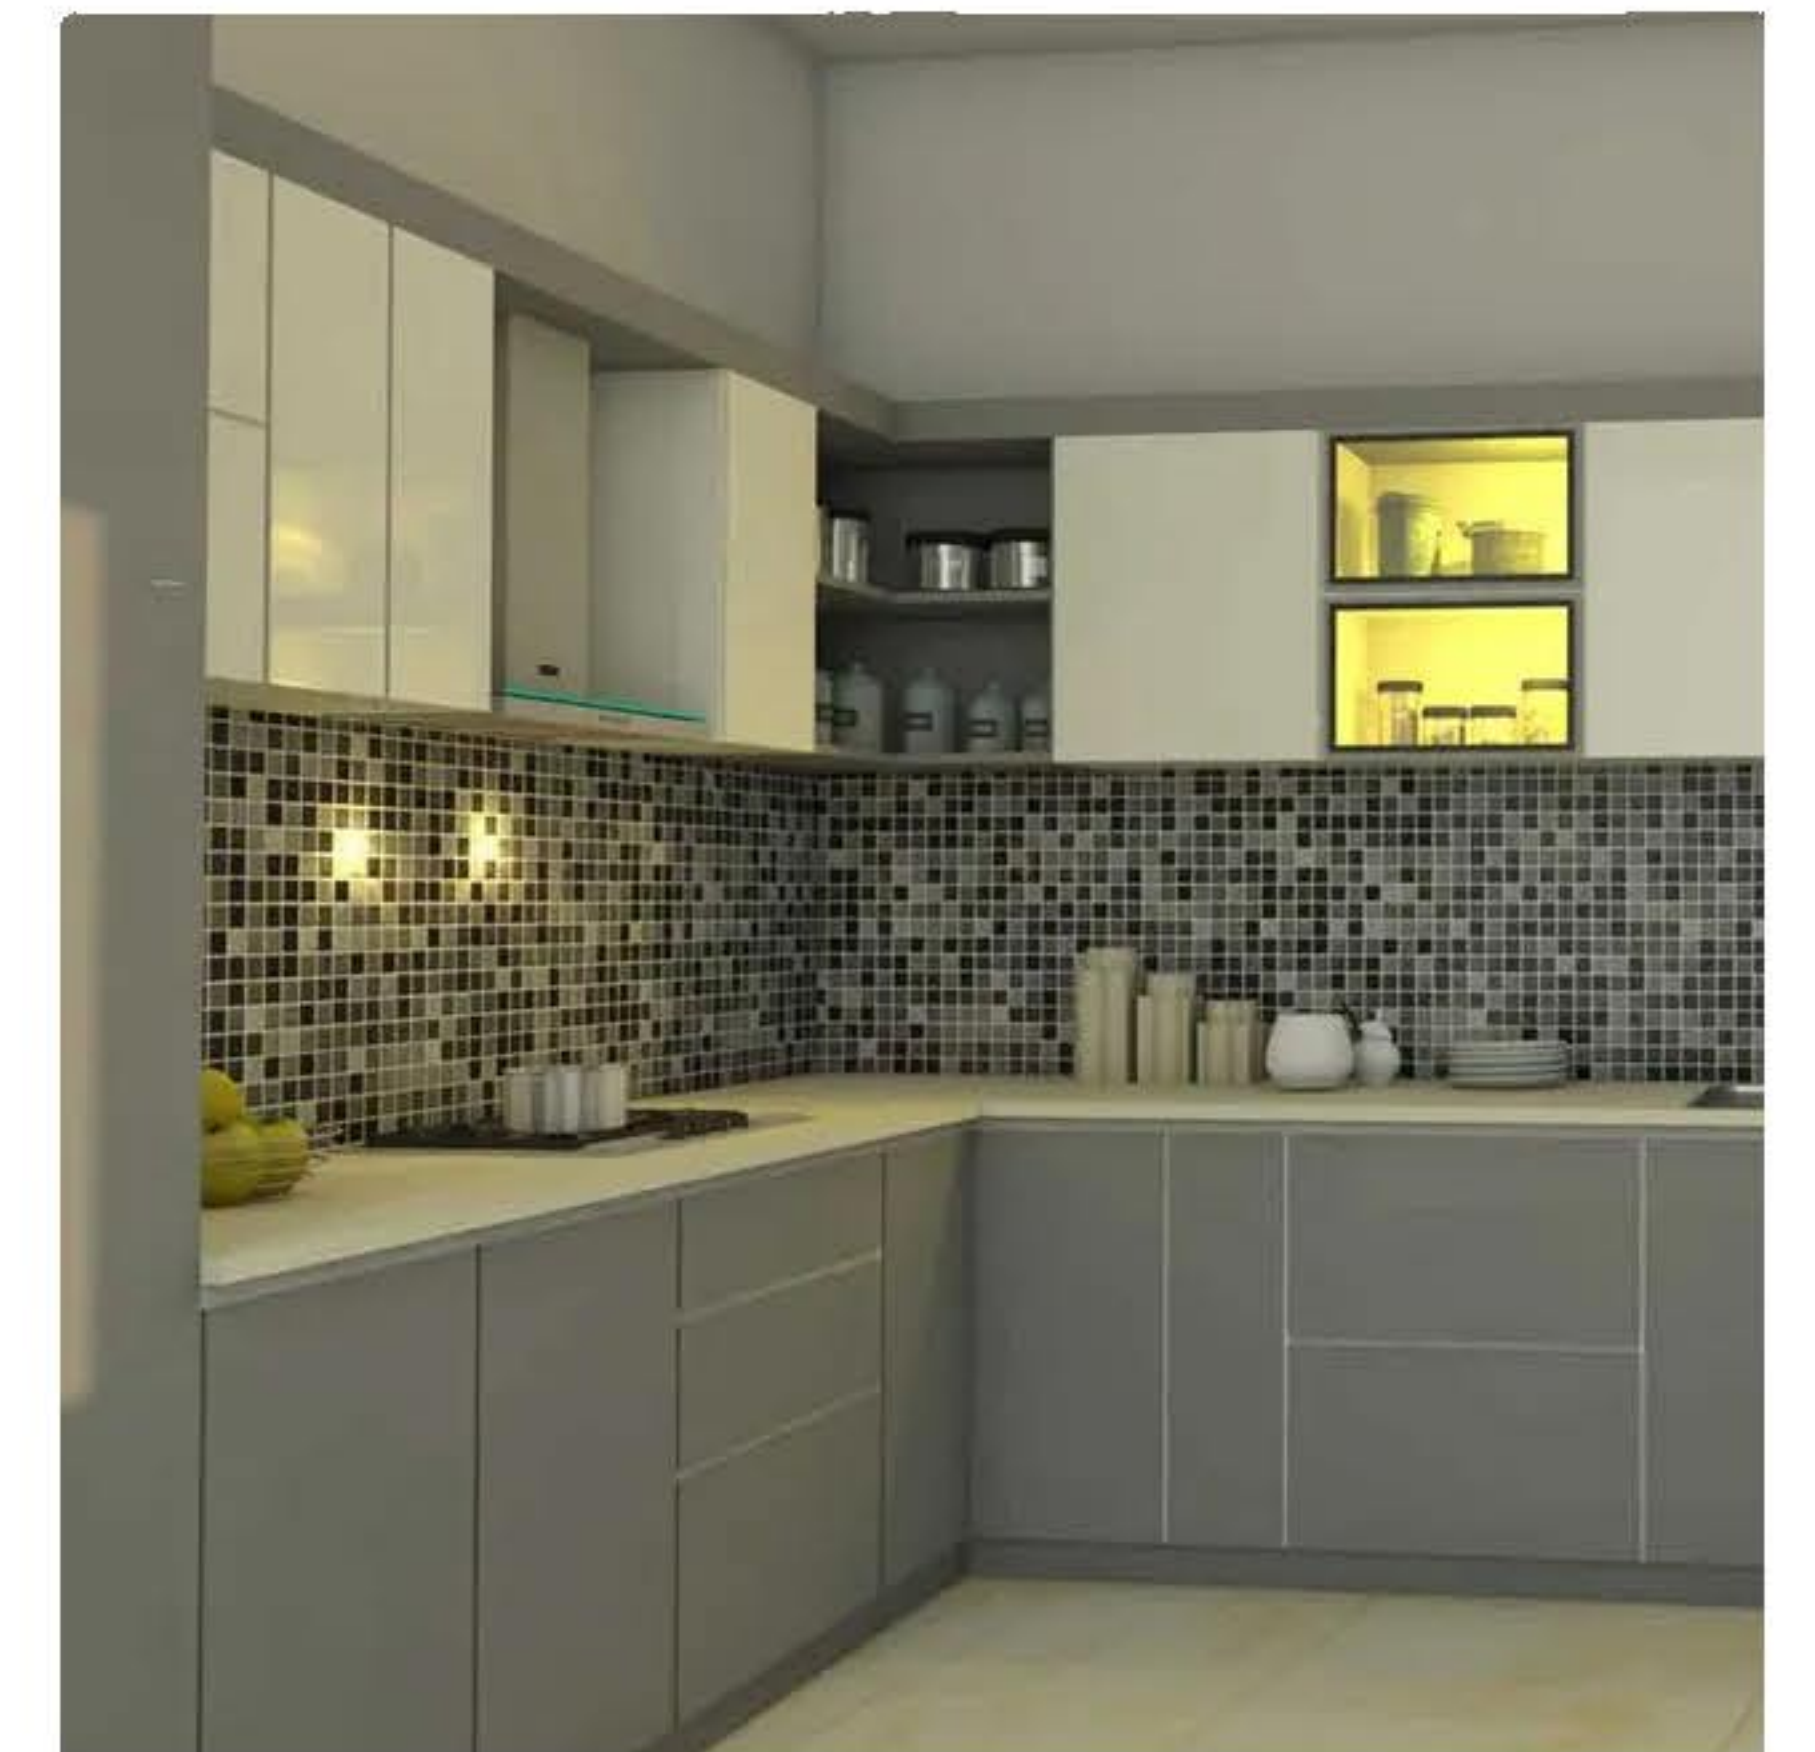

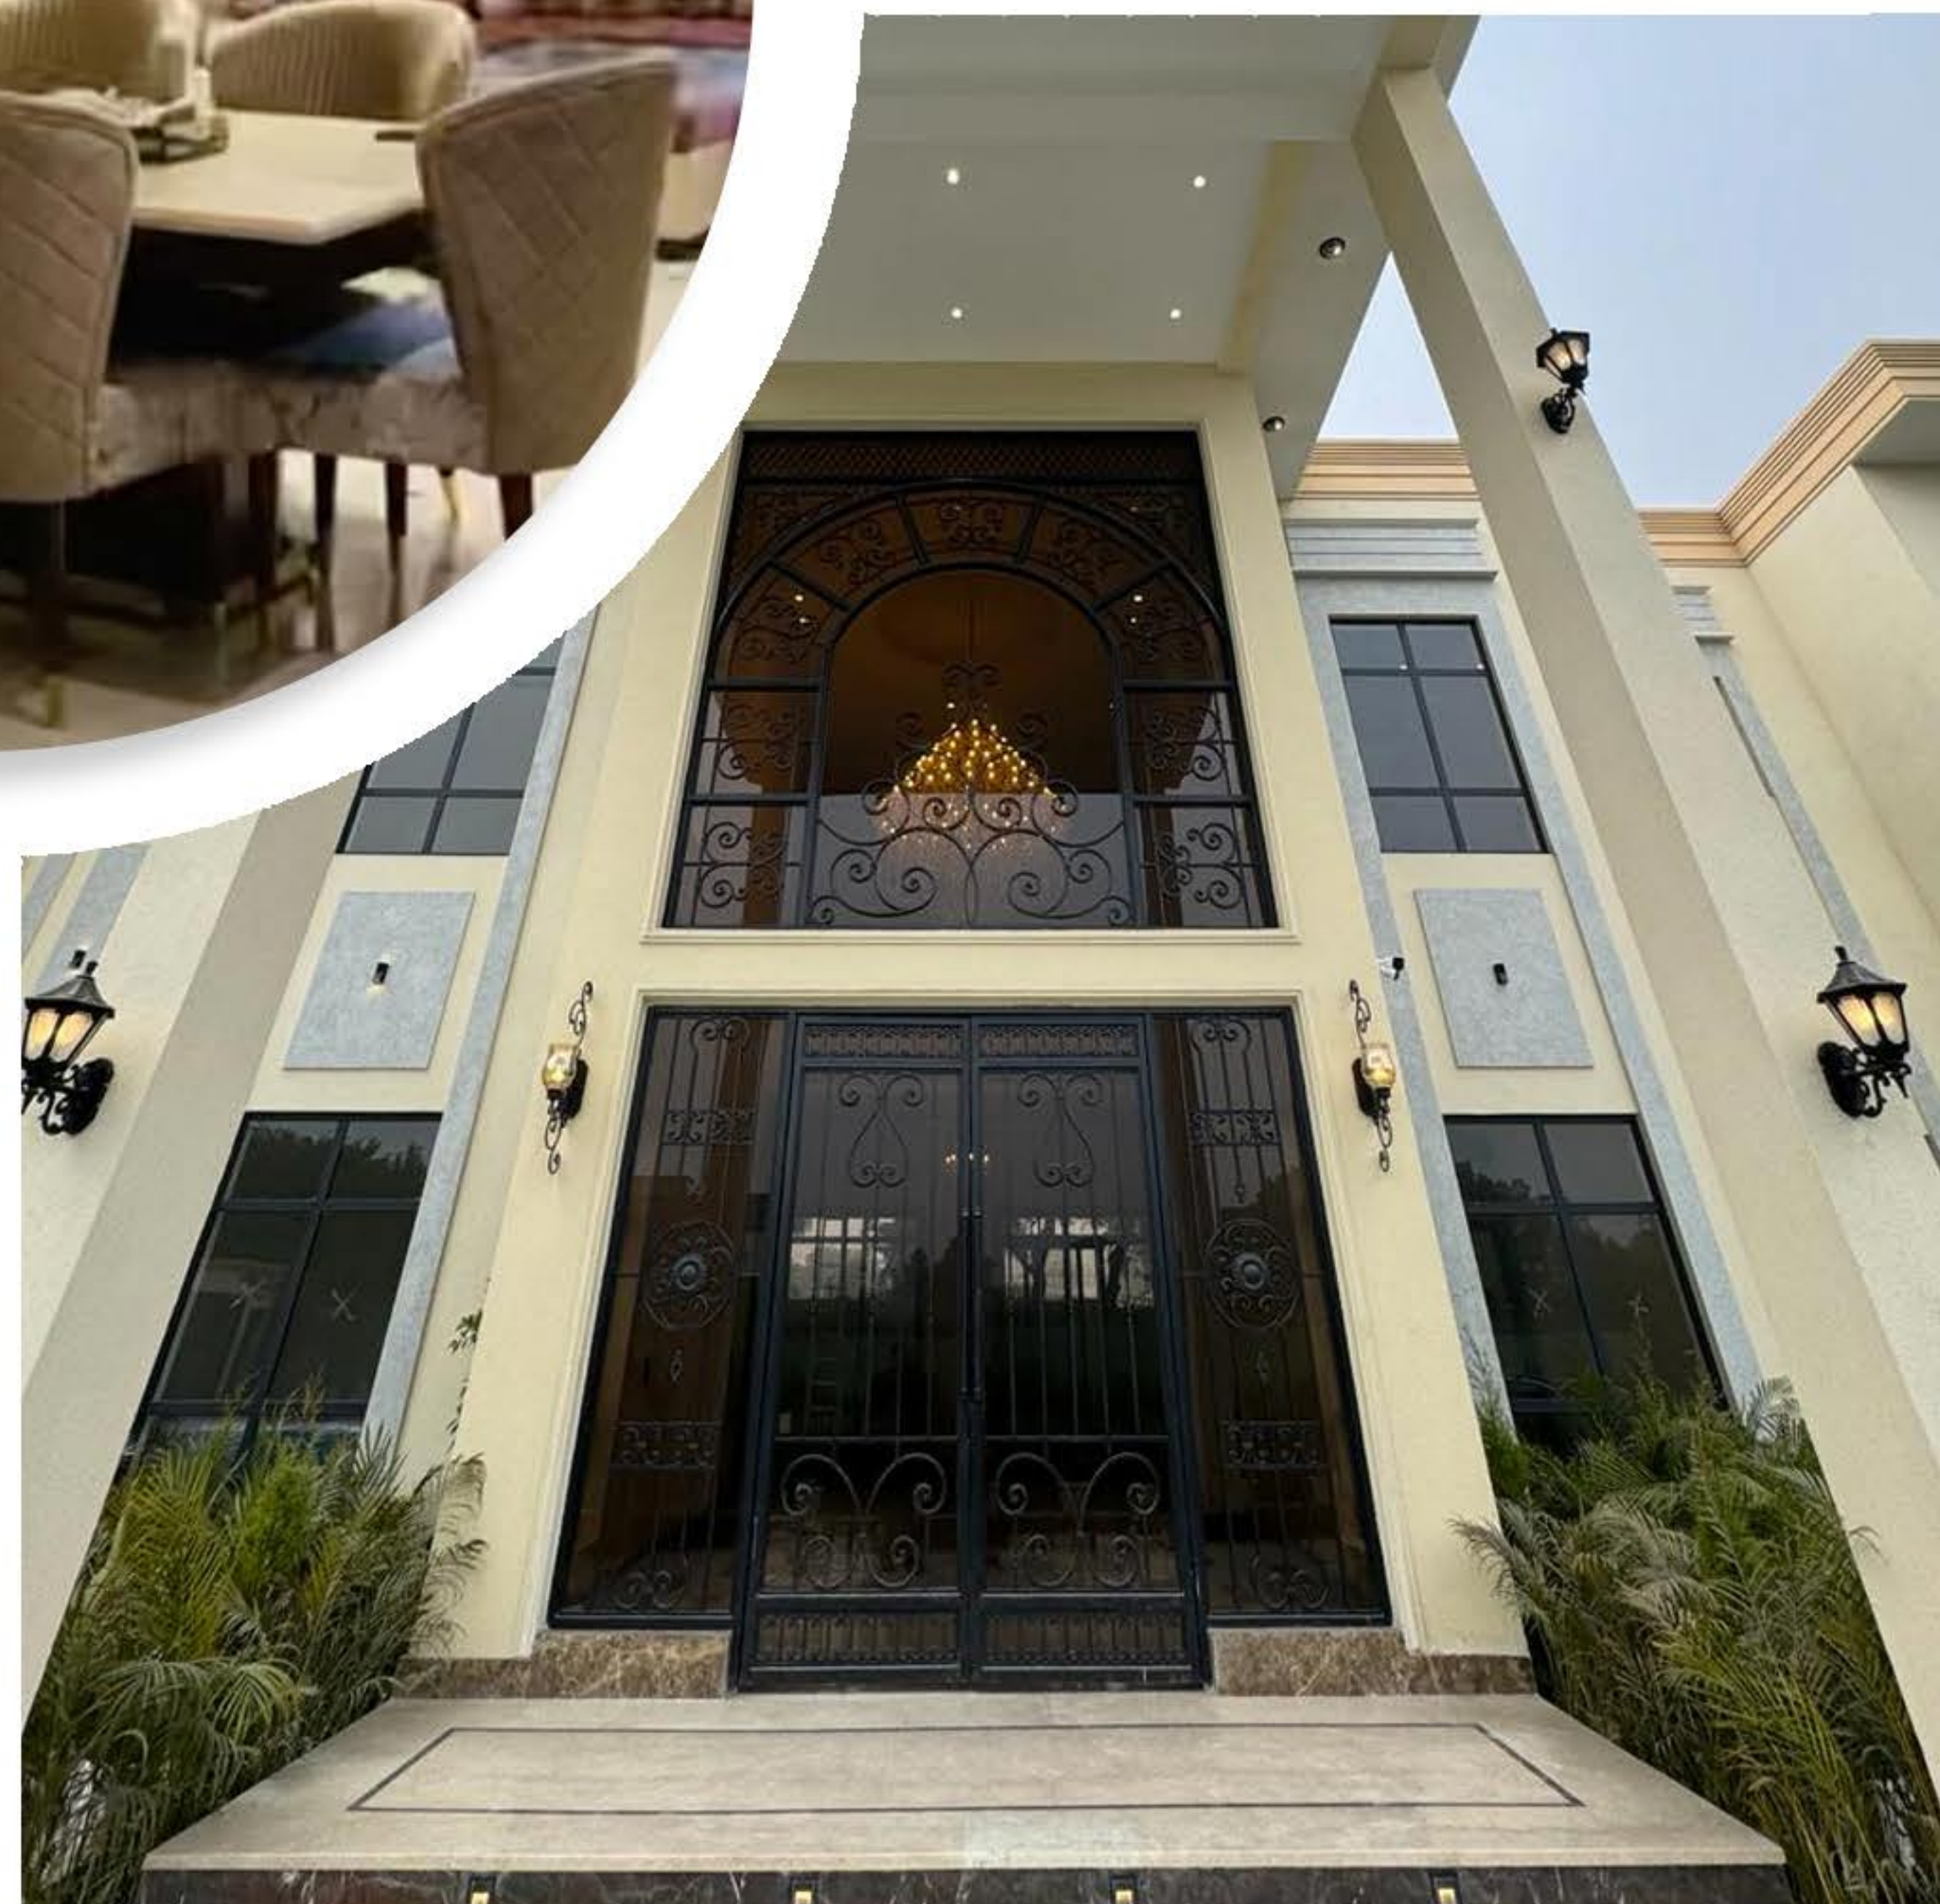

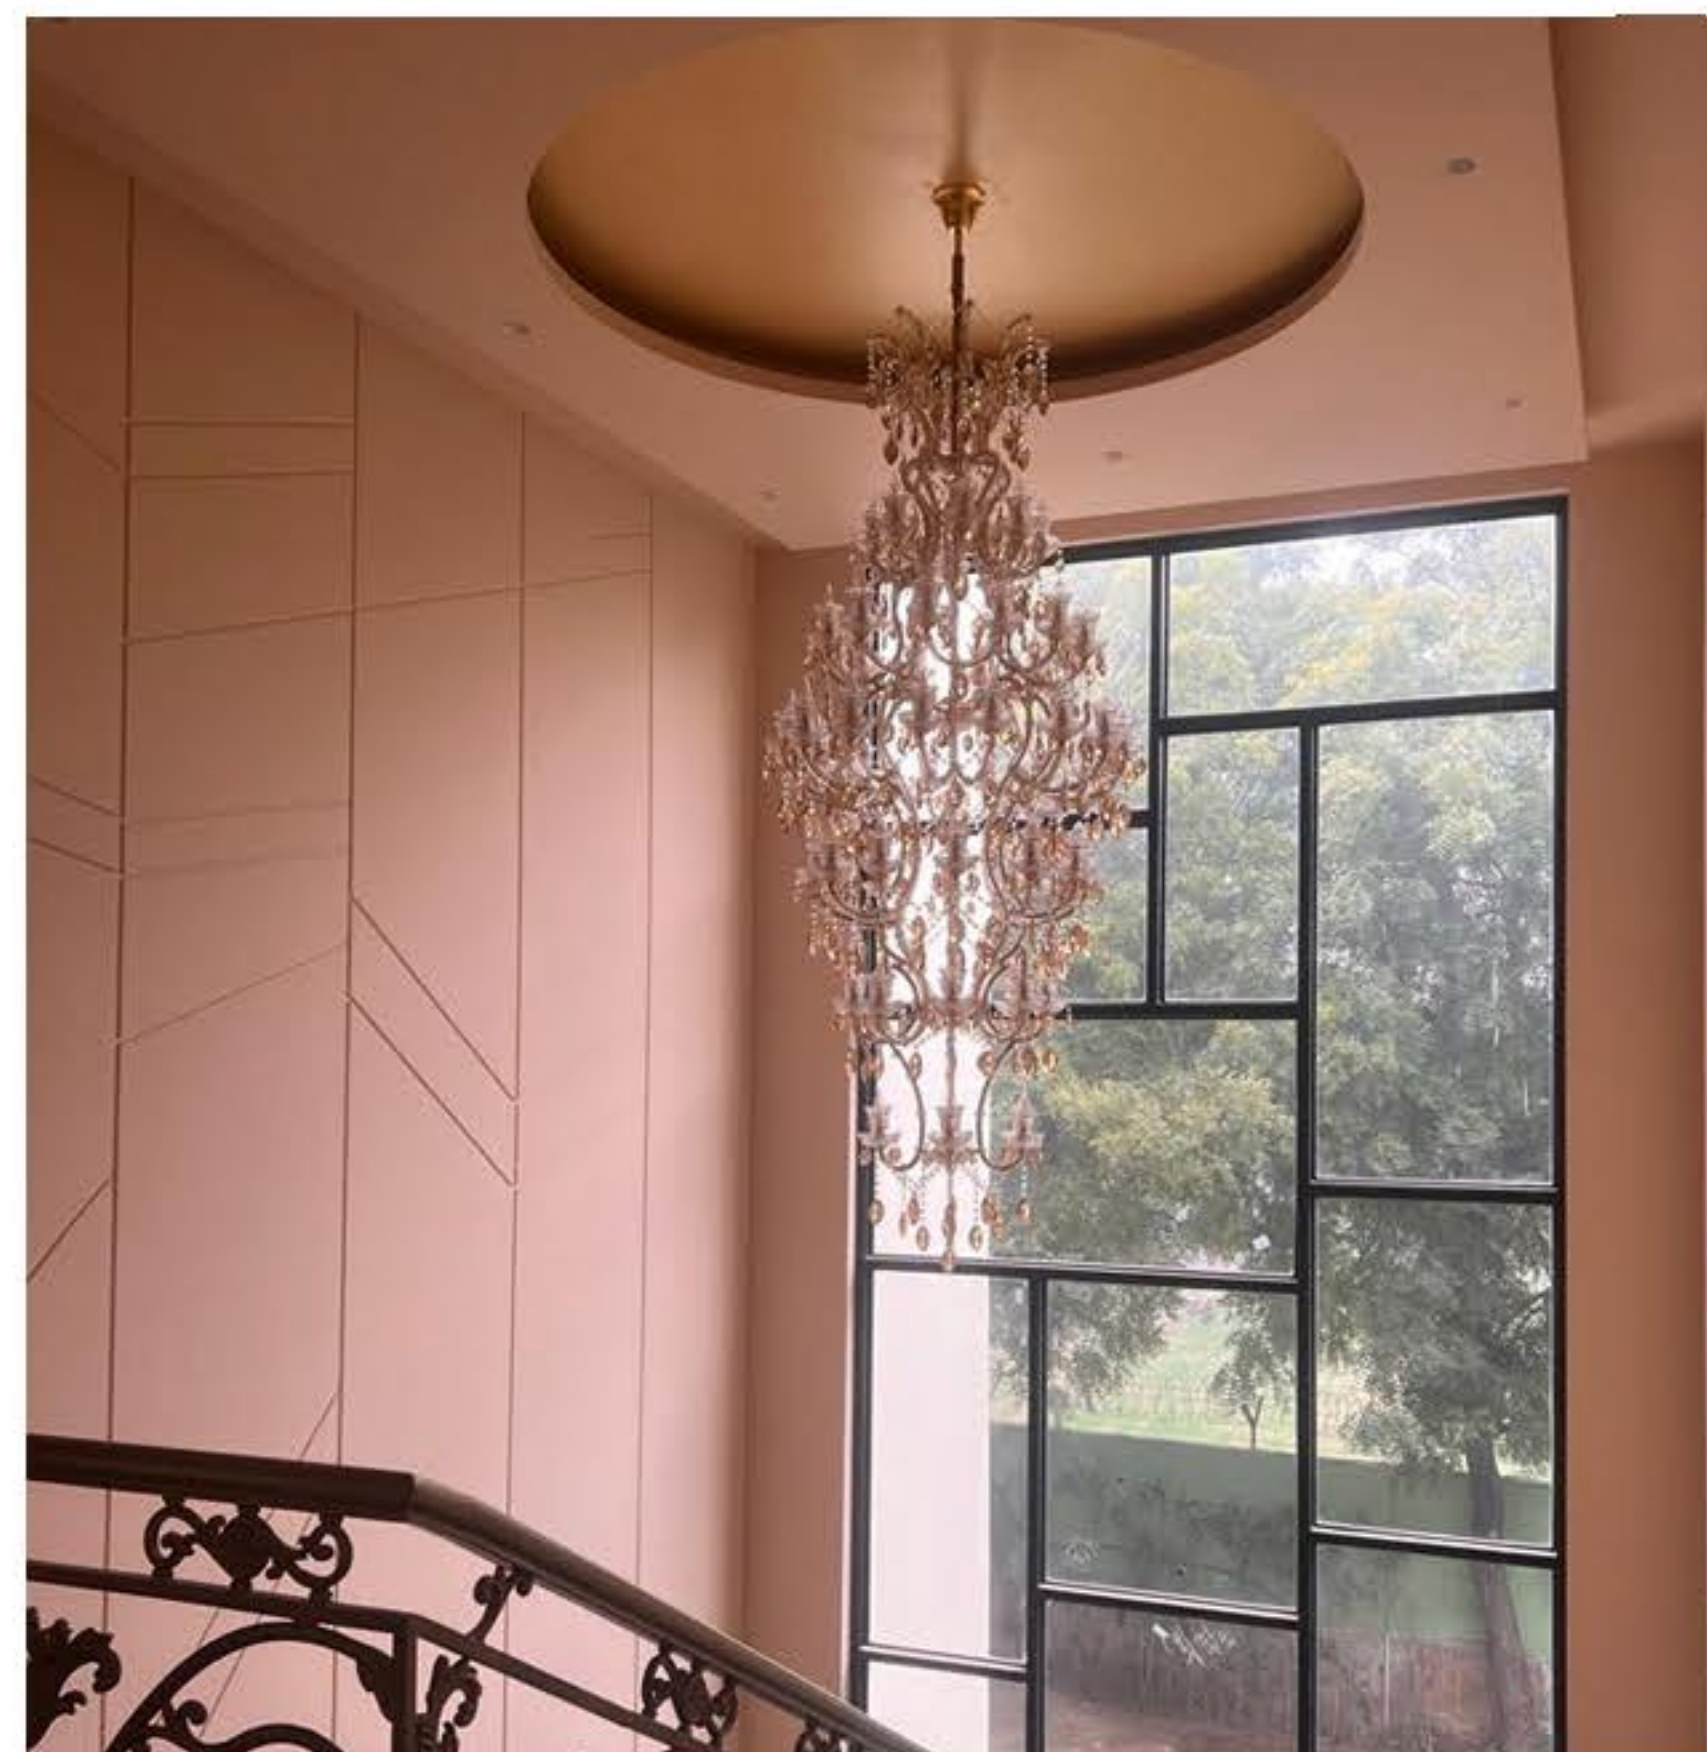

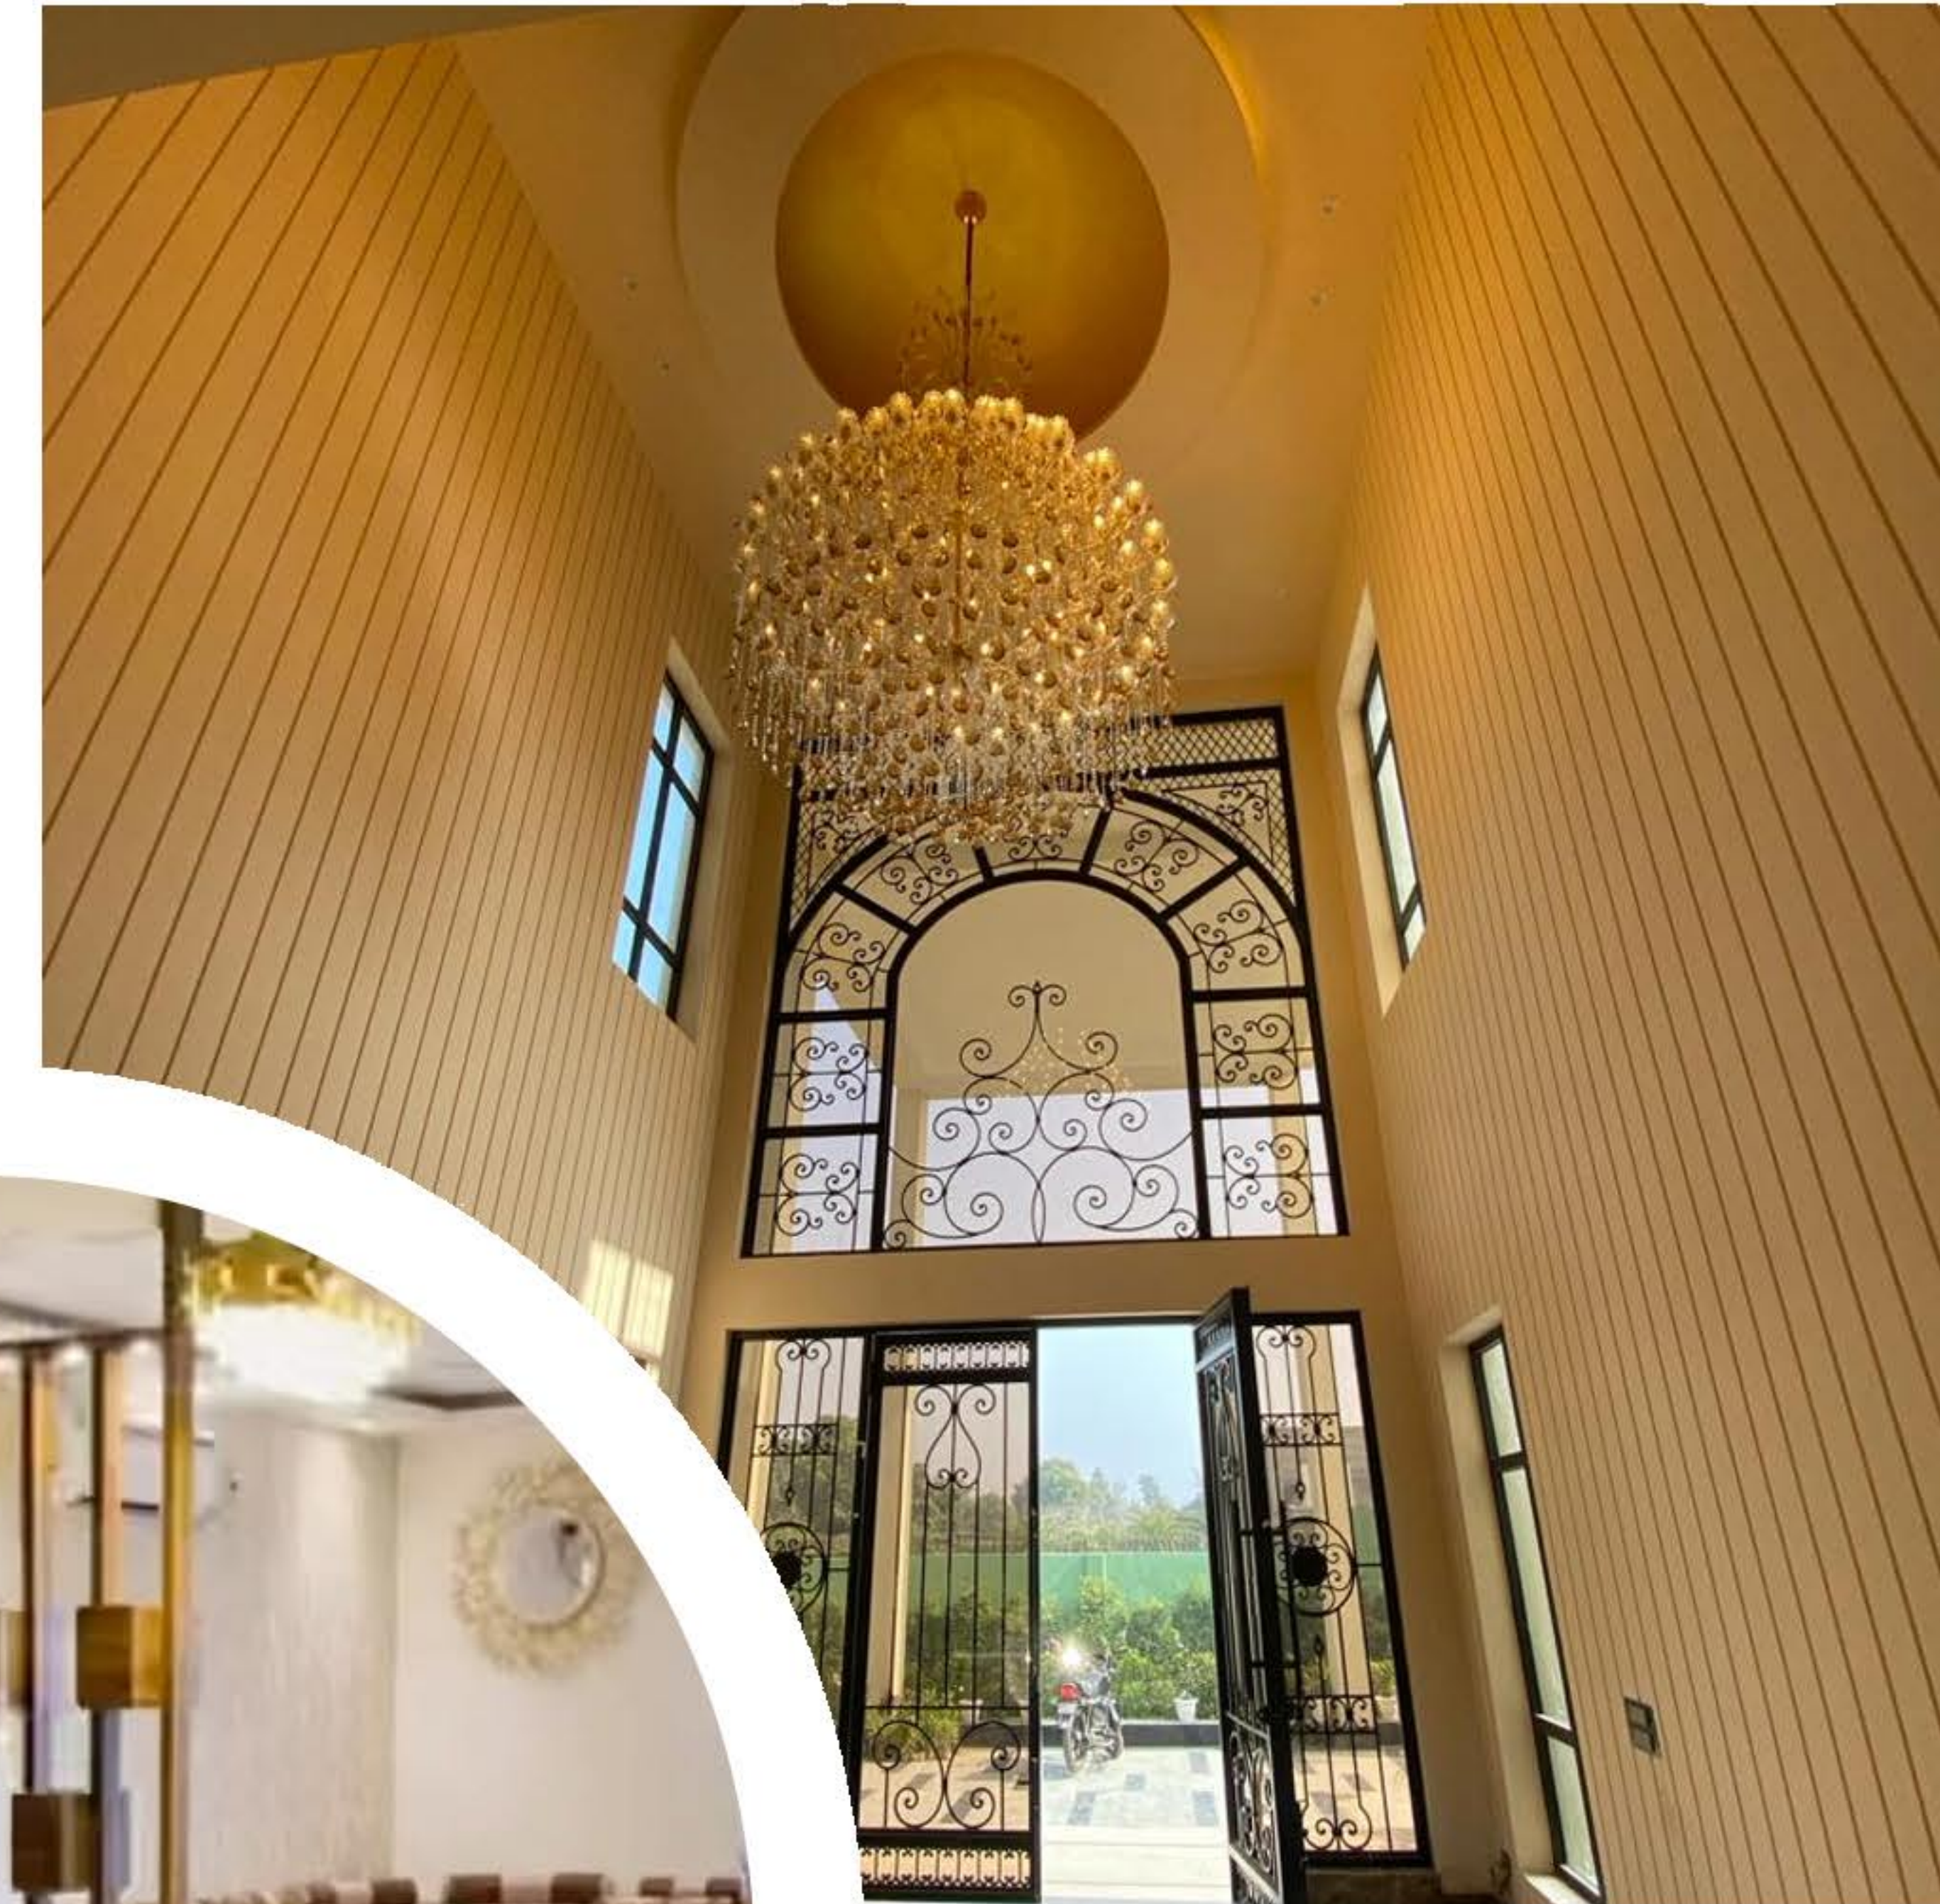

To provide a hassle-free home-building experience.

At Venus, we all commute to work every day as we want to make home construction hassle-free for plot owners. At Venus, our mission is to transform the personal residential plot development market in India. Homebuilding is seen as a tedious and stressful process.

Our Start

Mr. Sunil Bhatia founded Venus Buildtech, a residential home developer, in mid-2007. Mr. Bhatia has built the company with transparency as its core value. In early 2007, it began work on its first project, which quickly grew into more projects as the company's reputation spread.
